Experience

Web Developer · [University of Virginia's Miller Center of Public Affairs](#)

Charlottesville, VA | August 2022 – Present

- Design and develop new website features and custom Drupal templates using HTML, SCSS, JavaScript, and PHP, based on stakeholder requirements.
- Maintain a Drupal-based website by deploying consistent module and Drupal core updates.
- Share code and use best version control practices through Git.
- Manage [millercenter.org's](#) compliance with WCAG (Web Content Accessibility Guidelines).
- Troubleshoot and debug front-end website issues.
- Write detailed documentation about newly created website features.
- *Tech stack:* HTML, SCSS, JavaScript, PHP, Drupal, Twig, Git, AWS, Jira

Academic Tutor & IST Instructional Assistant · Germanna Community College

Fredericksburg, VA | May 2018 – August 2022

- Facilitated study group sessions in Python and Java, leading to a 45% increase in student GPA performance compared to peers.
- Automated routine office processes using Google Apps Script, improving administrative efficiency.
- Conducted 100+ tutoring appointments per semester, supporting students in IST, writing, and statistics courses.
- Developed and supervised the development of academic resources to supplement content in IST courses.
- Mentored new tutors and conducted training sessions for all tutors in the center.
- Developed interactive online writing modules for use in cross-disciplinary courses.
- *Tech stack:* Python, Java, HTML, CSS, Google Apps Script

Independent Project

Big Football · [View Live Demo](#) · [View on GitHub](#)

February 2024 – Present

- A web app built with Next.js designed to deliver dynamic NFL content.
- Teams and players have their own dashboards featuring game schedules and results, team and player statistics, full rosters, conference and division standings, and more.
- *Tech stack:* Next.js, Tailwind CSS, TypeScript

Education
